Contributors' Statement

Sandaluz Lara-Cinisomo conceptualized and conducted the study, including developing the measures, conducted and supervised all of the data collection. Dr. Lara-Cinisomo also conducted the analysis and drafted the initial manuscript.

Kathryn McKenney conducted and supervised data collection, drafted the initial introduction, and reviewed and revised the manuscript.

Arianna Di Florio carried out the data analyses, and reviewed and revised the manuscript.

Samantha Meltzer-Brody helped conceptualize the study design and critically reviewed the manuscript.

All authors approved the final manuscript as submitted and agree to be accountable for all aspects of the work.

Acknowledgements

The authors wish to thank the mothers and their infants who participated in this study. This study could not have been possible without their commitment to our work. The authors would also like to acknowledge the hard work of our impressive research assistants and technical staff: Sierra Pierce, Jayme Wood, Mala Elam, and Chihiro Christmas.
