<b><i>Chapter 1: Main Introduction</i></b>	
1.1. Introduction .....	1
1.2. Architecture of the Tooth Organ .....	5
1.3. Development of the Tooth Organ .....	6
1.4. Components of the Dental Pulp .....	8
1.5. The Dentine Matrix .....	10
1.5.1. Primary and Secondary Dentine Formation .....	13
1.5.2. Tertiary Dentine and Tooth Repair .....	15
1.6. Stem Cells .....	19
1.6.1. Embryonic Stem Cells .....	19
1.6.2. Adult Stem Cells .....	22
1.6.2.1. Neural Crest Stem Cells .....	23
1.6.2.2. Mesenchymal Stem Cells .....	24
1.7. Asymmetric Stem Cell Kinetics .....	27
1.8. Stem Cell Differentiation .....	29
1.9. Niche Influence on Stem Cell Behaviour .....	31
1.10. Stem Cells of the Perivascular Niche .....	33
1.11. Isolation of Stem Cell Populations .....	34
1.12. Stem Cells of the Dental Tissue .....	37
1.13. Dental Pulp Stem Cells in Dentine Repair .....	43
1.14. Aims .....	46
<b><i>Chapter 2: Isolation of Distinct Populations of Dental Pulp Progenitors</i></b>	
2.1. Introduction .....	47
2.2. Materials and Methods .....	50
2.2.1. Cell Sources .....	50
2.2.2. Culture Medium .....	50
2.2.3. Cell Maintenance .....	51
2.2.4. Extraction of Dental Pulp Tissue .....	51
2.2.4.1. Human Dental Pulp Extraction .....	51

2.2.4.2. Rodent Dental Pulp Extraction .....	52
2.2.5. Production of a Single Cell Suspension from Dental Pulp Tissues .....	52
2.2.6. Fibronectin Preferential Selection .....	53
2.2.7. Magnetic Activated Cell Sorting for P75 Cells .....	53
2.2.7.1. Human Dental Pulp Cell P75 <sup>+</sup> Labelling .....	54
2.2.7.2. Rodent Dental Pulp Cell P75 <sup>+</sup> Labelling .....	54
2.2.7.3. Magnetised Column Sorting of P75 <sup>+</sup> Cells .....	55
2.2.8. Fluorescence Imaging of the Actin Cytoskeleton .....	55
2.2.9. Time-Lapse Microscopy .....	56
2.2.10. Colony Forming Efficiency between Fibronectin Adherent and Non-Adherent cells .....	57
2.2.11. Isolating Clonal Populations of Cells .....	58
2.2.12. Determining the Population Doublings of Cells .....	58
2.2.13. Gene Markers of Multipotency and Pluripotency in DPSCs .....	59
2.2.13.1 Cell Lysis and Total RNA Extraction .....	59
2.2.13.2. Collection of Total RNA and DNase Digestion .....	60
2.2.13.3. Quantification of Total RNA .....	60
2.2.13.4. Complimentary DNA Generation by Reverse Transcription .....	61
2.2.13.5. Gene Amplification with Polymerase Chain Reaction .....	61
2.2.13.6. Agarose Gel Analysis of PCR Products .....	62
2.2.14. Statistical Analysis .....	63
2.3. Results .....	64
2.3.1. Isolation of Dental Pulp Progenitors .....	64
2.3.2. Progenitor Cell Morphology .....	64
2.3.3. Comparing Rodent DPSC Colony Forming Efficiency .....	65
2.3.4. Comparing Human DPSC Colony Forming Efficiency .....	66
2.3.5. The Growth Kinetics of Dental Pulp Isolated Progenitor Cells .....	67
2.3.5.1. Human DPSC Population Doublings .....	67

2.3.5.2. Rodent DPSC Population Doublings .....	68
2.3.6. Gene Marker Expression in Human DPSCs .....	69
2.3.6.1. Mesenchymal Markers of Human DPSCs .....	69
2.3.6.2. Neural Crest Markers of Human DPSCs .....	70
2.3.6.3. Embryonic Markers of Human DPSCs .....	71
2.3.6.4. Early Developmental Markers of Human DPSCs .....	72
2.3.7. Gene Marker Expression in Rodent DPSCs .....	72
2.3.7.1. Mesenchymal Markers of Rodent DPSCs .....	72
2.3.7.2. Neural Crest Markers of Rodent DPSCs .....	73
2.3.7.3. Embryonic Markers of Rodent DPSCs .....	74
2.3.7.4. Early Developmental Markers of Rodent DPSCs .....	74
2.4. Discussion .....	76

### ***Chapter 3: Differential Potential of Isolated Dental Pulp Stem Cells***

3.1. Introduction .....	86
3.2. Materials and Methods .....	89
3.2.1. Cell Source .....	89
3.2.2. Culture Media .....	89
3.2.2.1. Adipogenic Differential Media .....	89
3.2.2.2. Osteogenic Differential Media .....	90
3.2.2.3. Chondrogenic Differential Media .....	90
3.2.3. Differentiation Induction Procedures .....	91
3.2.3.1. Adipogenic Differentiation .....	91
3.2.3.2. Osteogenic Differentiation .....	92
3.2.3.3. Chondrogenic Differentiation .....	93
3.2.4. Histology of Adipogenic and Osteogenic Cultures .....	94
3.2.4.1. Oil Red O Staining .....	94
3.2.4.2. Alizarin Red S Staining .....	94
3.2.5. Immunohistochemistry of Differentiated Cultures .....	95
3.2.5.1. BSP Detection in Osteogenic Cultures .....	95
3.2.5.2. Chondrogenic Pellet Sectioning and 2B6 Antigen-Labeling .....	96
3.2.6. RT-PCR of DPSC Differentiation .....	97

3.3. Results	99
3.3.1. Adipogenic Differentiation of DPSCs	99
3.3.2. Chondrogenic Differentiation of DPSCs	100
3.3.3. Osteogenic Differentiation of DPSCs	101
3.4. Discussion	103

***Chapter 4: Effects of Dentine Matrix Proteins on Human Dental Pulp Stem Cell Viability, Proliferation and Migration***

4.1. Introduction	109
4.2 Materials and Methods	112
4.2.1. Cell Source	112
4.2.2. Culture Medium	112
4.2.3. Source of Dentine Matrix Proteins	112
4.2.4. Generating a Negative Dentine Matrix Protein Control (“DMP-Neg”)	113
4.2.5. Activation of TGF- $\beta$ 1	113
4.2.6. Cell Assay Standard Growth Curve	114
4.2.7. Determining DPSC Viability with MTS Assay	114
4.2.8. Determining DPSC Number Expansion with Crystal Violet	115
4.2.9. Quantification of Apoptotic Activity	116
4.2.10. Determination of Apoptotic Marker Expression	116
4.2.11. Migration of DPSCs in Presence of Dentine Matrix Proteins	117
4.2.12. Fluorescence Staining of Cells within Collagen Gels	118
4.2.13 Automated Cell Counting For Semi-Quantification	119
4.2.14. Statistical Analysis	120
4.3. Results	121
4.3.1. DMP Influence on DPSC Viability and Cell Numbers	121
4.3.2. Effect of DMP on DPSC Apoptosis	122
4.3.3. DMP influence on DPSC Migration	124
4.4. Discussion	127

## ***Chapter 5: Development of Cell Localisation in an Ex-Vivo Tooth Slice Model***

5.1. Introduction .....	137
5.2. Materials and Methods .....	139
5.2.1. Cell Source .....	139
5.2.2. Culture Medium .....	139
5.2.3. Production of Tooth Slices from Rodent Incisors .....	139
5.2.4. Viability Assessment of <i>Ex-Vivo</i> Cultured Mandible Slices .....	140
5.2.5. Incorporation of PKH26 Tracker Dye into Monolayer Culture of DPSCs .....	140
5.2.6. Microinjection of PKH26 Stained DPSCs into Mandible Slices .....	141
5.2.7. Immunolabelling DPSCs for Stro-1 .....	143
5.3. Results .....	144
5.3.1. <i>Ex Vivo</i> Cultured Mandible Slice Viability .....	144
5.3.2. Evaluation of PKH26 Stained DPSCs in Monolayer Culture .....	144
5.3.3. Microinjection of Rodent DPSCs into Mandible Slices .....	145
5.3.4. Microinjection of Human DPSCs into Mandible Slices .....	146
5.4. Discussion .....	147

## ***Chapter 6: General Discussion***

6.1. Discussion .....	152
6.2. Conclusions .....	162

<b><i>References</i></b> .....	163
