

Do I need to publish my work as Open Access (OA)?

The [Cardiff University Publications Policy](#) strongly encourages all Cardiff University authors to deposit the full text of the post-print into the institutional repository [ORCA](#) no later than 3 months after acceptance. Bibliographic details of all research outputs must be recorded in ORCA.

All [RCUK](#) and [COAF/Wellcome Trust](#) funded publications must be available Open Access via an institutional or subject repository (or both). It is recommended that ORCA is used in all cases.

From 1st April 2016 all **articles** and **published conference papers** to be submitted to next [REF](#) must be OA. From 1st April 2016 to 1st April 2017 publication data and full text must be submitted no later than 3 months after publication to be eligible. See the [HEFCE OA](#)
